

# WillYouLoveHim (WYLH.org) Biblical Calendar

## Roman Years: 2020-2021

### About This Calendar

This calendar is an original work created and published through WillYouLoveHim Ministries (WYLH.org). It may be re-distributed for free, but should not be sold. The goal of this calendar is to help you follow our Creator's originally designed calendar and understand what days Biblical events have taken place on throughout the year.

If you see a month appearing twice in this calendar starting on two different days of the week, that means the expected day to see the New Moon in the USA is uncertain and could go either way. For any months with two possible start days where we can't be sure when the moon will be sighted, we have to wait until the night the New Moon is searched for to determine what the outcome will be. For months with only one possible start day, that means the expected USA New Moon sighting appears fairly certain which is why we only include them one time with one starting day and not twice. However for all months of the year we must actually have witnesses sight the New Moon (which means, technically, we don't know 100% for certain about any month until the New Moon is sighted). This calendar does not take into consideration sightings in Yisra'el because we believe witnesses in the USA should be accepted also. If you go by sightings out of Yisra'el only, please be aware these dates may not match the visual sightings in Yisra'el. We currently do not know anyone personally in Yisra'el to take sighting reports from either who shares the same convictions regarding not using binoculars to first find the moon in the sky and we only take reports of New Moon sightings from people we know because we have to make sure they follow the same standards as us. We have been told by a believer in Messiah who lives in Israel that it is standard practice for most people there to use binoculars first before seeing it with the naked eye (especially if the sky is hazy) and they still report those as "naked-eye" sightings even though binoculars were used first. We do not count those sightings at all because we don't believe binoculars should be used to find the new moon in the sky first before seeing it with your own eyes.

There is sufficient Scriptural evidence that the first month of the Biblical year has to be early enough to permit the barley harvest to begin as early as possible to not lose crops since it could not be harvested until the wave sheaf offering in Leviticus 23:11 occurred according to Deuteronomy 16:9-10 and Leviticus 23:14 (also see Exo. 9:31-32, Lev. 2:14, Lev. 23:10-14, Deut. 16:1, Deut. 16:9). We believe there is sufficient Scriptural evidence to show the Harvest itself is how we start the Biblical year. By observing the barley development, we believe the timing for the first month will match what they did anciently. We do not see any Scriptural evidence that it is required the equinox happen before the first month begins. We believe Genesis 1:14-15 supports focusing on the Harvest, not the equinox. Light is for the land (Gen. 1:15), and light creates heat, which brings seasonal changes from winter to summer (Gen. 8:22) when the year starts and Harvest begins (there is only winter and summer in the Bible). The equinox is not an Appointed Time mentioned in Leviticus 23, but the Harvest is. The equinox has no spiritual significance and there are no parables about the equinox, but the Harvest does have great spiritual significance and is used in important parables the Messiah shared. Clearly, the Harvest cannot be ignored or set aside and it is a critical component of the Biblical Calendar. Also, unharvested barley could be ruined if left on the stalk to wait for the equinox to start some years, which is further evidence that in some years it is impossible to wait for the equinox. Four weeks would be needed to get to the next month, and then two more weeks would be needed to get to the time of the wave sheaf offering in Leviticus 23:11. That's a difference of 6 additional weeks since the Aviv soft dough stage of barley growth. The Heavenly Father would not bring a harvest that He expects you to let go to waste. Mark 4:29 "And when the crop is ready, immediately he puts in the sickle, because the harvest has come." Considering all these things, it's clear the month of HaAviv has to occur when the first-fruits of barley are in the stage of Aviv because by 4 weeks later it would no longer qualify for the Lev. 2:14 Aviv stage of growth, and by 6 weeks later the first-fruits and other barley fields would probably have been lost.

Regarding the Omer Count, Leviticus 23:16 shows that the 50th day in the count would be "the morrow after the seventh Sabbath", Leviticus 23:14 with Joshua 5:10-11 shows the Omer count must have started that year on the 15th on the first day of the week since they ate roasted/parched (which means new Aviv grain) on the 15th, and when Messiah rose, it was on the 17th on the 1st day of the week also (and He is the first-fruits according to 1 Cor. 15:20-23). All of this is enough evidence to conclude the Sabbath of Leviticus 23:11 was a weekly Sabbath and that our counting method is correct. See our Biblical calendar study for more details on the Omer count.

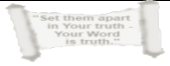

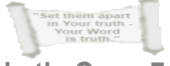

At the time of creating this calendar, the beginning of the year and months within the year is only an estimate to the best of our ability. If we find out any of the estimates for the start of the year or start of a month are incorrect, we plan to remove any incorrect calendar from the website and upload a corrected copy. However, the only way you would know about such a correction is by re-visiting the website at a later time or contacting us to see if the calendar has changed. Pray that if we or this calendar is in error in any way that it be revealed to us. We hope you are blessed by this!
